

My Simple Process of launching Powerful Facebook Ad Campaigns for any business

Simple WhatsApp chat to start the process I will ask some important questions regarding your business

based on your answers I will create a special promotion that will eventually plugin to your ad campaign

I will write a powerful and enticing ad copy to promote your offer to most targeted audience

The Ad copy will be so powerful that targeted audience will click the ad to find out more about the offer and will be ready to do business with you

user will enter their information and will become a lead to your business

as soon as they become a lead the automation process kicks in

the lead will get pre design sms message to follow through with your company

your company will receive sms that you got new lead

automatic spreadsheet will be generated to give you all the information about your lead name, phone # and email address

leads will start coming in to your business each and every day until you ask me to stop the campaign

I am not done here, at this point i will start sending your leads an automatic follow up email series, I call it soap opera sequence, that will make sure that our lead will do business with you, **no guess work, it is predictable results**

And I will automate the whole process so **you can get clients each and every day**
Stop relying on word of mouth & referral business

Conclusion

I will create a perfect masterpiece ad for your company that has never been done before in your business

I will nail down the perfect offer for the potential clients so when they will see your ad, they wont be able to help themself, but to click and find out more about your product and services

I will create on target Pixel for your audience so wherever they go on the internet our Advertisement Offer will follow them and remind them to take action, this is powerful stuff

Automation is the key I will automate most of the Process so you can get leads and customers on a daily basis, never ever worry about the shortage of leads and customers anymore

I will be working with your company every month to create more offers , create more leads and custom audience, so we can start duplicating the sales and leads..
